INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, JANUARY 28, 2000 - 1000 MST NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION:

Fire activity continued last week in the Southern, Southwest and Southern California Areas. Large fire activity was reported in the Southern, Southwest and Rocky Mountain Areas. Currently activity has moderated in the Southern Area due to cold weather and precipitation through much of the area.

OUTLOOK:

The southwest will be partly cloudy in Arizona and New Mexico with a chance of showers in the northern areas and dry in the south. Temperatures will be in the 40's and 50's in the north and in the 50's and 60's in the south.

West Texas should be dry throughout the week with high temperatures in the 40's in the mountains and warming to the lower 70's in the valleys by mid week.

Florida will have rain likely in the north and central portions today and over most of the state through the weekend. Expect partly cloudy conditions with a slight chance of rain for the rest of the week. High temperatures will be in the 50's in the north and 70's in the south.
